MOU Between SECURI LAB & JETI

MEMORANDUM OF UNDERSTANDING (MOU)

This Memorandum Of Understanding (MOU) is made between SECURI LAB and JETI to supports the Memorandum Of Understanding The details are as follows.

In this agreement, SECURI LAB has made the following proposals:

1. In the future, SECURI LAB may offer Free Audit/KYC quota for projects or dapps on JETI , which will be a strategic alliance between JETI and SECURI LAB.
2. SECURI LAB may share important news about JETI as a partner.
3. SECURI LAB may offer a 30% discount on projects on JETI that use our services or products.
4. SECURI LAB will provide the option to JETI to audit JETI specific contracts free of charge as part of the strategic alliance.

***Free Audit/KYC quota condition**

Quotas for free audits. Projects to receive the quota must have a Smart Contract Code that does not exceed 500 lines.

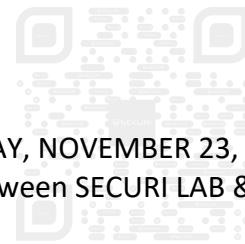

In case of exceeding SECURI LAB has the right to reject or accept the quota.

- SECURI LAB reserves the right to refuse to grant quotas to any project or Dapp with complex code such as Perpetual Contract, Loaning, Lending, Bridge, DEX.
- Once SECURI LAB has assigned a quota to those projects/dapps, SECURI LAB has the right to schedule an audit commencement or postponement in accordance with SECURI LAB's onboarding schedule in order to maintain its audit potential.
- SECURI LAB offers a free audit quota of up to 1 projects/dapp per month. However, the amount of quota can be flexible. The right to determine the amount depends solely on SECURI LAB. Quota requests can be submitted through JETI or directly to SECURI LAB.

Free KYC quotas. KYC Verification The examinee must be C-Level or Owner/Deployer. of the project only In the event that an abnormality is found We reserve the right to cancel the quota and blacklist such project/dapp and SECURI LAB will announce it on other media and channels. to prevent fraudulent attempts

- SECURI LAB offers a free KYC quota of up to 1 projects/dapp per month. However, the amount of quota can be flexible. The right to determine the amount depends solely on SECURI LAB. Quota requests can be submitted through JETI or directly to SECURI LAB.

****SECURI LAB reserves the right to cancel the distribution of the quota without prior notice or to change the conditions without prior notice.**

MEMORANDUM OF UNDERSTANDING (MOU)

About JETI

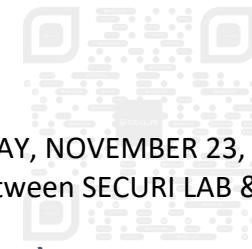

Introduction

Services

With a focus on community and growth, JETI will also be launching a suite of services as well to better sustain the project and minimize the financial burden of using third party products. An added benefit is that the use of these services will be made public with fees associated to that to fund the JETI project as a whole. These services will include:

- **Security** - With a focus on security, we are implementing a cross-project feature to identify those who wish to cause harm to projects known as JETI Secure. And we know that people can change and there will be probationary and rehabilitation processes to reintegrate these misguided users back into the communities if that is what they want. This is meant to create a secure, sustainable community without fear of losing their investments.
- **Token Creation** - Our token generator will allow you to choose from different types of tokens so you can tailor it to suit your project. These will be then used within the Project Launch.
- **Project Launch** - Launching projects can be expensive for the project owners themselves with all the fees of launching contracts, tokens and NFTs. We will have our own JETI Launch platform that will allow us to launch our seed, pre-sale and public token sales. This will also be available to other projects to use for a fee.
- **Vesting and Vault** - Once your project has been successfully launched, your tokens can be locked up within our Vesting Locker so that you can have them paid out periodically.
- **Tax Assessment** - Taxes can be tricky and we have your back. Our team will be working on creating tax assessment tools that will help you stay on top of what type of taxes you may owe within your country and region.
- **Swap** - Utilizing the Uniswap Protocol V2, we will be providing an enhanced JETI Swap to allow you to convert your tokens without having to use third party products. This will

allow economic growth and sustainability within our community and help provide another layer of security.

- **NFT** - We are going to be making a NFT suite of tools that will include generating the images required, minting, marketplace and an API interface which will allow you to embed our source within your pages so you don't have to go through the effort of creating it.
- **Consultation** - We are here to ensure that you are successful! Our team can assist with Interface Design, API Creation and Contract Building. Contact us for more details.
